SÜLEYMAN TİMUR (TEACHER):

“This activity is important in terms of increasing unity and togetherness among children and developing the sense of cooperation, solidarity and empathy. In this context, as a school located in an earthquake zone, our children had the opportunity to concretely see that they are not alone and not forgotten. I am grateful for making our children happy. I would like to thank everyone who contributed. Best regards.”

GÜLBAHAR ASLAN (TEACHER):

“Thank you for contributing to my students loving their lessons more, helping them learn by understanding, developing their achievements and skills while having fun, and learning by doing and experiencing activities that they will use in every aspect of their lives with materials that will make our lesson learning easier and more enjoyable. The children were very happy with your gifts, you completed many of their deficiencies.”

ÖZLEM GÜL (Teacher):

“Thank you so much for your support. We will make sure that our students will benefit from the materials in the most efficient way. Our school is located in a mountainous rural area and is reached by transportation from five different villages. Since our parents are engaged in farming, they cannot be very closely involved in the education of our students. The support you give us to ensure that children receive quality and sufficient education is very valuable. Their gifts have connected them more to the school and education. Greetings and love to all of you from Candarlı Elementary School.”

YUSUF DURMAZ (TEACHER):

“This educational set supports our students' multi-dimensional thinking skills and prevents our students from falling behind in opportunities that their peers can access and offers them equal opportunities in education. On behalf of all our students, parents, teachers and future generations, we wish this tree of solidarity to be permanent and present our love, respect, most sincere feelings and gratitude.”
